

Connect.Vet is your daily tool to share and visualize not only all kind of medical images but also videos and photos. It's built to communicate with other vets, clinics, clients and PACS systems. By publishing high-end quality studies to owners and colleagues, it becomes your personal business card.

MOBILE

Browse, diagnose and mail your studies right from the **palm of your hand**. Available on iOS and Android

REPORTS

Split-view enhances the creation of **personalised** reports with checkboxes and tables while reviewing studies

LOCAL + CLOUD

Supports **multiple modalities** (CT, US, MRI, Endo...) both offline and online

AUTO-MODE

Compare L/R-images automatically for an **easier** reviewing process
